

Quick Reference Guide & To Do List for Wed. Night Race Committees

Category	Item Description	Location	Notes
MARKS	Remove Marks from Mark Box (2 orange Tetrahedrons and 1 Yellow Cylinder)	Along fence to right of club on your way down	Combo for lock is 2443 or 4324
ANCHORS & RODE	Line and Weights for Marks	Under the aft part of the Lindsay Lord in tubs	Please return these items to the tubs after use
BOATS	Lindsay Lord and Power Boat #10	Both will be on the docks before you arrive and fueled up	ask staff if there are any irregularities
FLAGS	See photos in binder if you have questions on where to put them	These are stored down below in there respective slots on the bulk heads and some are too large and are on the bunks	Flags for showing location of course area are on the bunks and are Large "A" "B" & "C" not the international code flags
AUTO START	This helps run the 5 minute starting sequence with a push of one button	Mounted on dash of Steering Station.	After the start make sure you the Sequence and Shape Alert Select buttons at the same time to reset the system or you will roll into another sequence a minute later
RADIO	Set to VHF Channel 69 for the racing	Mounted over head of steering station	Use for announcing course location, Over earlies, and RC intentions to competitors
GUN	Shot gun with shells	Shells are down below on forward shelf and gun is in green case down below.	Use for first place finisher only. Keep the used shell and use pen to write the boat name/number on it.
GPS	Handheld GPS	In Fleet Back Pack	Use for setting the Line Length and Windward mark distance - see instructions in binder
B&G INSTRUMENTS	Wind Direction & Speed	On steering station	Wind direction doesn't work perfectly but this will give you an idea if the wind is shifting and its strength
ELECTRICAL PANEL	Need to turn on certain items like Instruments and autostart and lights etc... if you want to use them	Under steering station	
BATTERY SWITCH	Should be on when you arrive	Starboard side of steering station just under side of the deck	Turn to off when leaving boat
KEY	This is needed to start the boat put into on position - You will need to press the start button to start the boat however	On yellow Horseshoe key ring	Give to launch driver when leaving the boat
START/STOP BUTTONS	Need to press these to start and stop boat. Make sure your throttle is in the back/slow position	Forward area of steering station	
WINDLASS	This is used to pull the anchor up not to pull the boat to the anchor - make sure the anchor is free from the bottom of the water by moving the boat first and then use the windlass to pull up the anchor	On bow of boat and the buttons for operation are located on the steering station	
HEAD	Toilet	In Bow of boat	Need to turn power on to use flush system
TRASH BAGS	bags for your trash	In the drawers or cabinet below steering station	There is a trash bucket on starboard side to use with the trash bags
FLEET BACKPACK	has binder, gps, binoculars and writing tools	given to you by past RC or RC fleet officer	take this with you and give to next RC or RC officer along with scores for the night
